

WHILZ Care™

Ongoing property upkeep and protection on a predictable schedule.

Your property. Our care. Year-round.

One trusted team handles routine cleaning, pest prevention, compound care and essential upkeep so your home or facility remains clean, functional and presentable.

1 CLEAN

2 MAINTAIN

3 PROTECT

4 COORDINATE

A single coordinated journey, supported by one WHILZ team in Abuja, Nigeria.

Care that fits your property

Services and visit frequency are agreed after a simple property assessment.

1. Routine Deep & Maintenance Cleaning

- Scheduled Interior Cleaning: Recurring visits (weekly, bi-weekly, or monthly) covering living areas, bedrooms, kitchens, and bathrooms.
- Surface Sanitization & Dusting: Deep wiping of countertops, high-touch fixtures, cabinet exteriors, doors, and baseboards.
- Floor Care & Polishing: Professional vacuuming, sweeping, mopping, and floor buffing tailored to tile, hardwood, or terrazzo.
- Glass & Mirror Spotting: Streak-free cleaning of interior glass doors, mirrors, and accessible window panes.

2. Groundskeeping & Exterior Maintenance

- Lawn Care & Mowing: Regular grass trimming, edging along walkways, and lawn health inspection.
- Garden & Plant Upkeep: Pruning of shrubs, weeding of flowerbeds, and routine plant watering.
- Compound & Driveway Power-Washing: High-pressure washing of interlocked tiles, concrete driveways, and outer perimeter walls to remove dirt, mold, and tire marks.
- Waste & Debris Removal: Immediate clearing and bagging of lawn clippings, fallen leaves, and outdoor refuse after every service session.

A CARED-FOR PROPERTY

Inside and outside, kept in step.

Your recurring schedule combines a clean interior with healthy, presentable outdoor spaces.

Protect. Maintain. Coordinate.

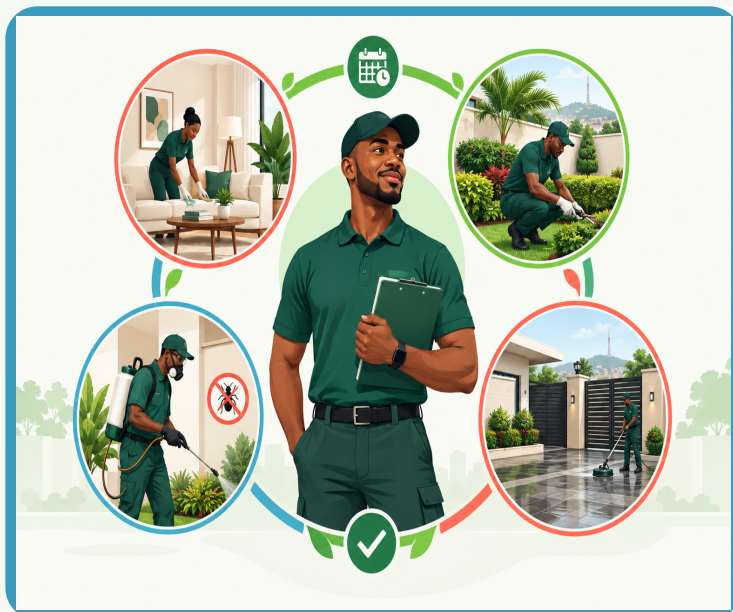

Ongoing care is shaped around the way your property works.

3. Pest Management & Prevention

- Preventative Fumigation: Scheduled pest barrier treatments to eliminate and deter cockroaches, mosquitoes, rodents, and ants.
- Perimeter Protection: Targeted exterior barrier application along compound walls, drainage points, and entryway thresholds.
- Eco-Friendly & Safe Chemicals: Odorless, non-toxic formulations safe for occupants, children, and pets.

4. General Upkeep & Property Care

- Drainage Clearing: Periodic clearing of gutter lines and compound drainage channels to prevent water stagnation.
- Water Tank & Generator Area Inspections: Visual checkups and surface clearing around utility compounds (generator sheds, pump houses, and water storage zones).
- Dedicated Account Coordinator: Single point of contact for service rescheduling, special requests, and emergency add-on bookings.

ONE TRUSTED TEAM

Ongoing protection and support.

Preventative pest care and essential property coordination give you a dependable point of contact year-round.
